

Let's get creative! Build recycled robots, engineer your own toilet paper tube car, design an obstacle course and complete while balancing a book on your head and then grab some paint and make a painting made only of dots. Feeling hungry? Try some rainbow toast! Have a great week!

Pointillism Painting!

Toilet Tube Race Cars!
You need: Toilet paper rolls, 4 pop bottle lids or something similar, scissors, toothpicks
Directions: Poke two toothpicks going through your toilet paper roll. Use scissors to poke small holes in you pop lids and put them on your toothpicks for wheels. Decorate and you're ready to ride!

Fun Activities You Can Do at Home!!

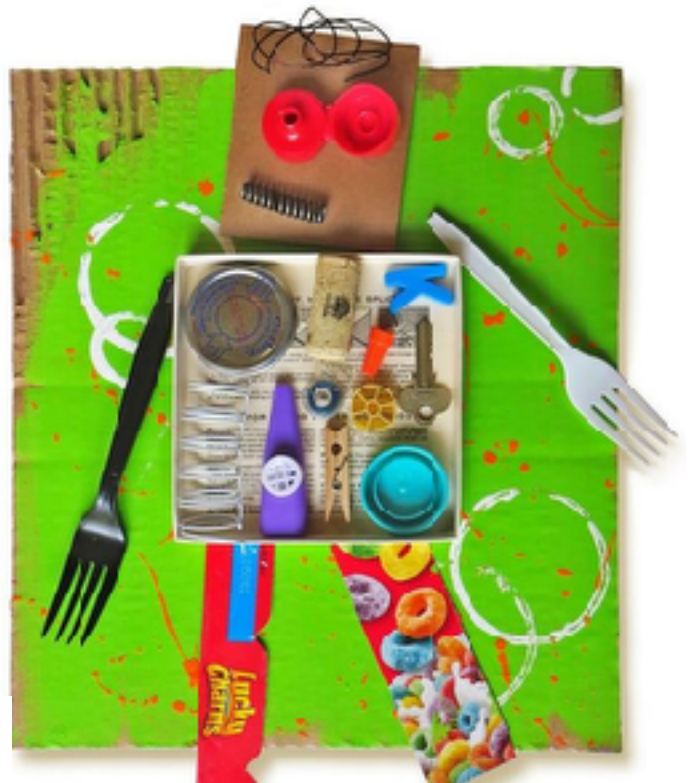

RAINBOW TOAST!!
WHAT YOU NEED: White or wheat bread, milk, food coloring, small cups/bowls, a **CLEAN** paintbrush, a toaster
WHAT YOU DO:
Pour a small amount of milk to each of your cups. Add a drop or two of food coloring and mix. Use your paintbrush to draw a design on your bread. **DON'T SOAK YOUR BREAD!!!** Let your bread dry for a couple minutes if needed and then toast it. Makes a fun breakfast or snack!!

ROBOTS

Let's Build a Robot!!

Don't just throw it away—Look in the recycle bin and get creative! Put on your thinking cap and design a robot made out of recycled parts. What can you use? A box becomes a head, tin cans become feet... what can you use? Have fun!

Does your robot have any special abilities? Can it build something, fight enemies, maybe do chores around the
